Pigstick may be deployed using the supplied anti roll clamp, an optional lightweight stand or by mounting to a Remotely Operated Vehicle (ROV) such as ABP's Cyclops or Guardian. Preparation of the Disruptor is straightforward and quick to achieve and may be carried out remotely from the target to enhance operator safety.

Pigstick is constructed from non corroding stainless steel parts which are manufactured in accordance with ABP's ISO 9001 quality approval system. Prior to release each equipment is subjected to an over pressure proof test and flaw detection.
